Why is it so important for company members to dance all summer? For every week a student does not dance, it takes two weeks to regain lost skills. Dancing during the summer maintains and improves the dancer's skills. Therefore, all Company and Competition Team members are required to dance a minimum of 18 summer hours or risk losing company class placement. We want to be as flexible as possible, so these hours may be taken during the Full Day Program or during the Company Class Program.
